*Shown with OSP drop cable and OptiTap™ to SC Adapter (not included)*

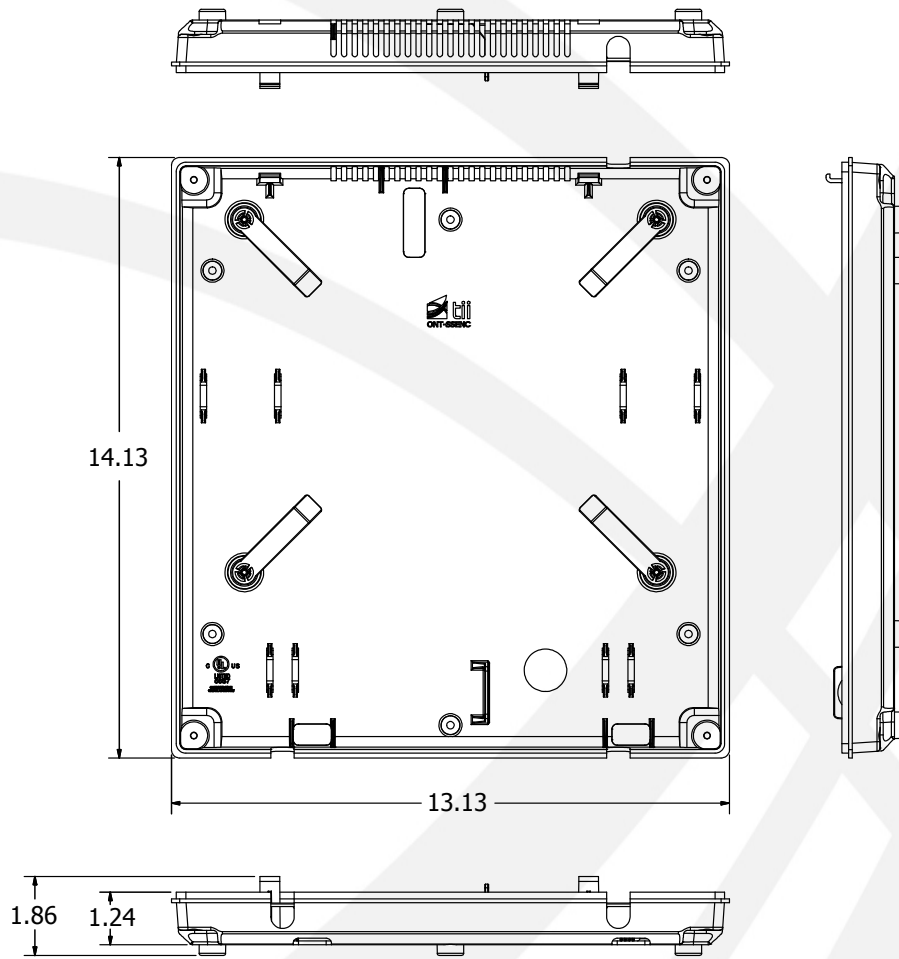

The ONT-SSENC1 is an indoor slack storage enclosure which can accommodate greater than 50 ft. of flat drop fiber with adjustable fiber retention fingers. The design constrains “springy” drop cable in a way that maintains a bend radius greater than 6 inches.

The unit attaches to a wall and contains mounting provisions that allow the Tii ONT Enclosure part number ONT-ENC to be mounted directly on top of it. For Outdoor applications or installations that require an integrated front cover, please see Tii model ONT-SE1.

#### KEY PRODUCT BENEFITS

- ▶ Matches the look and feel of Tii model ONT-ENC
- ▶ Aesthetically pleasing for Indoor use
- ▶ Mounts directly to wall, including mounting holes on the centerline, to optionally attach to wall stud if available
- ▶ Includes mounting bracket to hold optional OptiTap™ to SC Adapter (not included) for transitioning from OSP Flat Drop Cable to Bend Insensitive Fiber Jumper to ONT
- ▶ Unobtrusive design, shallow depth
- ▶ Simple to use slack retention features
