Headend/CO

Utility/Municipality

P307

The P307 VDSL connector block is a powerful solution for protecting outside plant cables for voice, data, and video signals. It is designed to provide space savings and improved economy. The front face of the P307 VDSL connector block has room for 100 industry standard 5-pin plug in protector units arranged in a 10 x 10 configuration.

### KEY PRODUCT BENEFITS

- ▶ Available loaded with choice of DSL, Gas Tube, Solid State, or Hybrid Delta protector modules
- ▶ DSL compatible
- ▶ Compact, lightweight design
- ▶ Designed for use in integrated cabinets and distribution frames
- ▶ Gold plated contacts
- ▶ Clearly marked protector positions
- ▶ Customized input and output options available
- ▶ Outside plant side of connector is wired with four 24 AWG CAT5e cable stubs

### INDUSTRY STANDARDS

- ▶ Telcordia GR-2916 Compliant
- ▶ Listed to UL 497
