758ZS

758Z Network Interface Adapters are compact, single pair Retrofit designed to improve network capabilities by converting an existing station protector into a fully functional network interface device. It is designed to replace the existing covers of Tii's 325, 326, 321 or 320 single-pair station protectors.

KEY PRODUCT BENEFITS

▶ Significant labor savings result from using the 758Z to convert to a protected single-line network interface

▶ RJ-11 Plug and Jack furnished with weather-resistant grommets

▶ Telco Wiring Bridge allows easy hookup of accessories, such as a half-ringer

▶ Hinged top cover includes easy-to-follow customer installation instructions

▶ Customer access is totally isolated from Telco wiring and the protectors for added safety during installation

▶ For two-pair network interface capability, Tii manufactures the 759/760 retrofits for conversion of Tii's 325, 326, 321 or 320 two-pair station protectors
INDUSTRY STANDARDS

▶ Listed to UL 497
