The 68M-2S is designed for applications requiring more than one parallel connection to a single service in addition to providing connectivity to an existing Home Security System. This product is an ideal fit for digital voice networks connected to a home security system.
KEY PRODUCT BENEFITS

▶ Offers multiple extension connections for 1 digital voice or POTS line

▶ Provides interface connection points for security systems. Each connection is identified for proper wiring.Incorporates integral sealed test points – no additional loose test clips required

▶ Terminations are made to gel-sealed insulation displacement contacts (IDC) by means of convenient tool-less rocker assemblies. Wire stripping is not required.

▶ Equipped with side wire looms for easy wire management

▶ Compact, low profile design fits into applications where space is limited. Accepts 26 through 22 gauge solid conductor wire sizes

INDUSTRY STANDARDS

▶ Listed to cUL and UL 1863

▶ CAT6 Compliant

Dimensions are in Inches
