Utility/Municipality

761-RJ45

The Tii Indoor Flush Mount Ethernet Branded Jack is designed to provide a simple, fast, and reliable demarcation point for Ethernet services. It mounts to an industry standard single gang box and the rear CAT5e/CAT6 wire terminations are performed utilizing Tii's Industry Standard tool-less IDC connections.

KEY PRODUCT BENEFITS

▶ Single piece molded design for tamperproof long term reliability

▶ Installs easily on industry standard single gang box

▶ Craft familiar tool-less IDC connections for simple and reliable connection

▶ Color coded wire connections for either T568A or T568B standards

▶ Gold plated contacts for long term reliability

▶ Exceeds CAT6 requirements and supports Gigabit Ethernet speeds

▶ Supports IEEE 802.3at Power Over Ethernet standard to allow powering remoted devices

▶ Built in strain relief for Ethernet cable

INDUSTRY STANDARDS

▶ UL 1863 Communication Circuit Accessory

▶ ANSI/TIA A-1096-A Terminal Equipment Connector Requirements

▶ TIA/EIA-568-C.2 Channel/link and Component Standards
