PPMT-25

The PPMT is a protected, twenty-five pair pole mounted terminal utilizing Tii's gel sealed, tool-less IDC connections. Its primary surge protection modules support drop wires from 18 gauge and 22-26 gauge without the need to strip the insulation.

Tii's AD-01G-FS Surge Arrestor is specifically designed to protect tomorrow's high-speed digital networks, such as ADSL2+/VDSL2 technology against damage caused by electrical surges. The unit has a tab style grounding provision for use in Tii's PPMT Protected Pole Mount Terminals and 117S products.

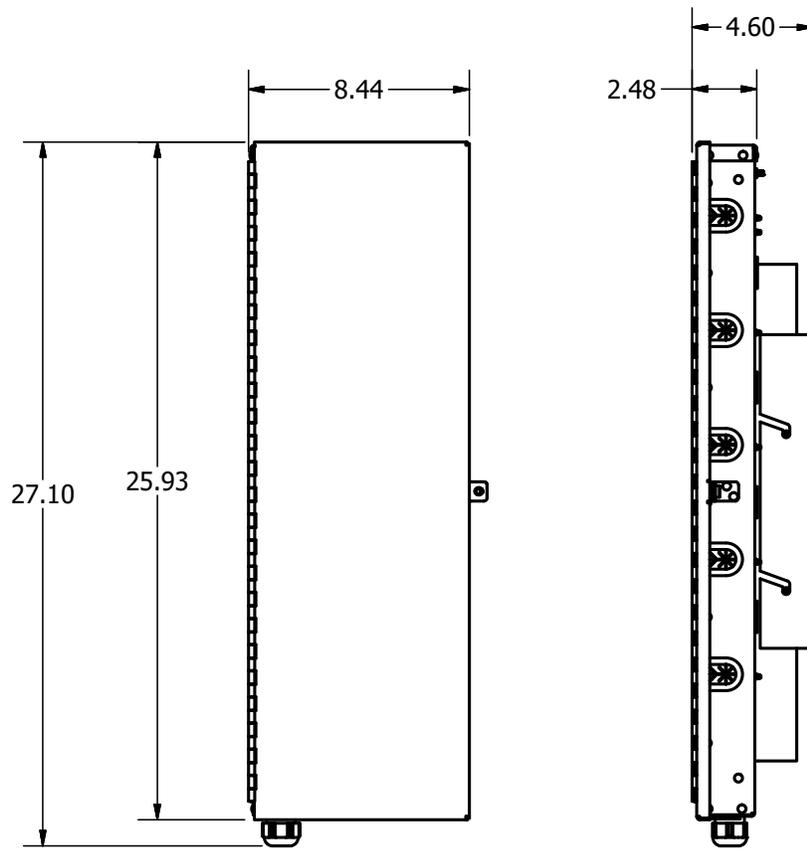

### KEY PRODUCT BENEFITS

- ▶ Simple installation
- ▶ Tool-less IDC connections
- ▶ Connections are gel sealed against the environment
- ▶ Lower IDC ports support 18 gauge as well as 22-26 gauge drop wires
- ▶ Aluminum construction resists harsh weather conditions
- ▶ Air dammed stub for pressurized systems
- ▶ High density, craft friendly design

### INDUSTRY STANDARDS

- ▶ Protectors listed to UL497
- ▶ Telcordia TR-NWT-000975, GR-1361-CORE, TR-NWT-000979
